

# ANTIMICROBIAL SHIELD

Get the best automotive hygiene system for you and your family.  
Safely eliminate bacteria, viruses, mould and odours.

## Protect your valuables

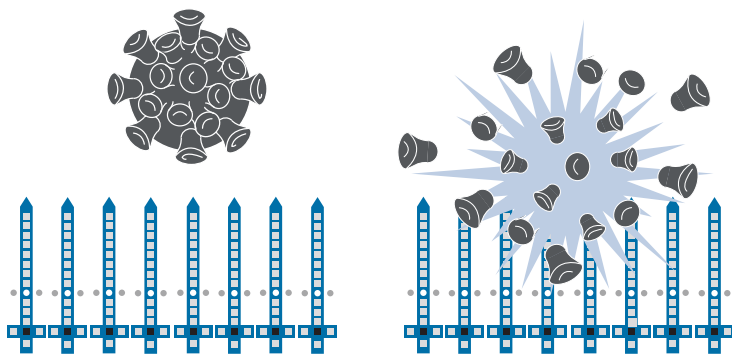

*"Researchers at Queen Mary University in London recently found that steering wheels carry more bacteria than public toilets. A public toilet is home to 80 bacteria for every square inch and a half. But 700 harmful bugs live in the same area on a steering wheel, gear stick and back seat."*

**- Daily Mirror UK 2014**

## How does it work?

Perfexion® Antimicrobial Shield once applied, forms an invisible barrier on all the surfaces of the interior of your vehicle and its air-conditioning system, immediately sanitising and eliminating harmful microbes and bacteria present.

A layer of microscopic pins coats the surface and kills the pathogens by piercing and rupturing their cell walls. Perfexion® Antimicrobial Shield therefore kills germs by 'mechanical' means and is non-toxic. All currently known superbugs are defenceless against our cell wall rupture technology.

The antimicrobial barrier is like a grass lawn with countless blades of grass that rupture or pop the bubble-like cell wall of the microbes, destroying them on contact.

## Advanced sanitation technology protecting you and your family all year round.

Helps eliminate odours

Stops mould and mildew build up

Hypo-allergenic

Invisible and non-staining

Air conditioning system decontaminant

Long term protection

Perfect for young families, sensitive noses, pet-lovers and germ conscious drivers.

- ✓ **FRAGRANCE FREE**
- ✓ **CHLORINE FREE**
- ✓ **COLOURANT FREE**
